Mission statement

To improve the health and wellbeing of our patients through the provision of high quality, accessible, professional healthcare services that inspire confidence in our patients and our community.

Our vision

Empower patients to make decisions that improve their health and wellbeing.
Responsive and safe clinical care provided.
Ensure that patients have safe and timely access to our services.
Ensure that we work as a team and value the contribution of every member.
Ensure the best outcomes for our patients by fostering a culture which is respectful, collaborative, welcoming and conscientious.

Our core values

We are patient-centred – putting patients at the heart of everything we do
We are caring – we are compassionate and caring about all our patients and staff
We are accountable – taking responsibility for our actions, being open and transparent with our patients and staff
We are fair– ensuring that all our encounters are courteous, respectful and without prejudice
We are professional – ensuring that our high standards of medical care are maintained through education, training and implementation of guidelines
We are adaptable – we respond to the changing landscape of General Practice and welcome innovation and adaptation in our working practices

Partners: Dr M J Brown and Mrs T Doyle
Salaried General Practitioners: Dr C Davidson and Dr A Alao
